

## Temporary Delay in Releases of Exam Scores: (updated 12/17/04)

**NOTE: Periodically, the Board of Pharmacy performs quality assurance assessments to ensure the appropriateness of the California Pharmacist Jurisprudence Examination (CPJE). The board initiated such a study on December 1, 2004. To assure the thoroughness of this assessment, the examination scores of approximately 400 individuals must be evaluated. Once 400 people have taken the CPJE, release of examination scores should resume on a weekly basis (usually within 14 days of the time a candidate takes the examination). Based on the number of candidates who took the CPJE in October and November 2004, release of scores will likely resume by mid-February 2005.**

**The board regrets this delay.**

### Routine Release of Scores:

The board attempts to release examination scores to candidates as quickly as possible, and mailings are done weekly. Once each week the board mails to candidates all the CPJE and NAPLEX scores it has received from Exporior Assessments (CPJE) and the National Association of Boards of Pharmacy (NAPLEX).

For the CPJE: The board attempts to release CPJE scores four weeks after the week the CPJE was taken. If the scores are ready for release sooner, the board mails the score report.

For the NAPLEX: Typically the board mails candidates their scores two weeks after the week that they have taken the NAPLEX exam.
